

Meng Rang

iOS/Android/Web Engineer

Do you need a dedicated developer who can help to create your site? I'm a full stack developer with 10+ years experience. My intention is to form a trusting working relationship by demonstrating total dedication and commitment to each individual project, no matter the size or the difficulty of the task at hand. I believe communication is key to any successful project.

WORK EXPERIENCE

FULL STACK DEVELOPER

Stepping Stone Advertising, New York

10/2017 - 01/2020

New York

Achievements/Tasks

- Responsible for several projects for clients including multiple Swift iOS applications, React Native (iOS & Android) applications, Android TV applications and backend systems for each project.
- As defacto team lead within the organization I was responsible for each client project as it came in and was passed through the development pipeline, working with every part of the application development lifecycle and working to meet client expectations while balancing time and effort.

SENIOR SOFTWARE DEVELOPER

Stepping Stone Advertising, New York

02/2020 - 07/2022

New York

Achievements/Tasks

- Full Stack Development with NodeJS, ExpressJS and React Native (iOS & Android).
- Setup and maintained CI/CD pipelines to multiple environments including backend, web and mobile app beta and production distributions.
- Mentored and trained multiple junior developers on staff and lead the development team from the start of the project up to over 5000 users and 15 team members.

LEAD BACKEND DEVELOPER

Experion, New York

08/2022 - Present

New York

Achievements/Tasks

- NodeJS, TypeScript. Lead DevOps with AWS including Elastic Beanstalk, Lambda, S3 and more.
- AI/ML service identification, development and integration.
- Database development with MongoDB. Working with large video data while managing infrastructure costs with rapid scaling in mind.
- Frontend iOS (Swift) API integration. Managing CI/CD pipelines, Github repositories, providing Github training and reviewing contributions.
- Managing infrastructure security and compliance for employee and user data.
- Delegate tasks to the 7 members of the developer team and provide counsel on all aspects of the project.
